Under the direction of its State Planning Committee and through research and direct involvement of representatives of the state's disabilities community and local election officials, the State of North Dakota entered into a contract for a new voting system. This voting system provides both second chance voting and independent and private voting for persons with disabilities in every polling place in the state. The contracted vendor is Election Systems and Software, Inc. (ES&S). The following units were delivered to and implemented in each of the state's 53 counties during 2004 and 2005:

Model 100 Optical Scanner	588
AutoMARK Ballot Marking Device	586*

*The difference in units is based on per county back-up unit purchase decisions.

No Title II expenditures were made during the 2005 federal fiscal year.
